1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

2. (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
3. Claims 1-6 are rejected under 35 U.S.C. § 102(b) as being anticipated by Hardy (5,541,000).
4. Hardy teaches an epoxy composition useful as an embedding material, that is as an embedding resin for electronic components which anticipates the instant claims (Abstract, column 9 lines 34-37). The epoxy resins of the instant claims are taught at column 3 lines 51-60. Pigments and the corresponding colors along with other fillers are taught at column 9 lines 2-6.
